

FARHANA AGUFA

DATA SCIENTIST | DATA ANALYST | SQL | PYTHON

ABOUT ME

A determined, passionate, and results-oriented individual with strong skills in Python, SQL, data visualization, and machine learning. Through my studies and real-world application projects, I've gained solid experience in data cleaning, feature engineering, model development, and evaluation, helping me understand how to solve real problems using data. I'm looking to join a forward-thinking team where I can grow my skills, contribute to team success, and support the organization in reaching its goals while continuing to develop both personally and professionally.

EDUCATION

WorldQuant University

Applied Data Science Lab : Feb 2025 - Present

DataCamp

- Associate Data Scientist : May 2024 - July 2025
- Associate Data Analyst : June - July 2025

Coursera

- Google Advanced Data Analytics Professional Certificate : 2023

SKILLS

- Data Cleaning and Preparation
- Exploratory Data Analysis
- Data Visualization
- Machine Learning
- Statistical Knowledge
- Programming Skills
- Statistical Knowledge
- Communication & Interpersonal Skills
- Collaboration & Team Building
- Problem Solving

CERTIFICATIONS

- Associate Data Scientist
- Associate Data Analyst

FARHANA AGUFA

DATA SCIENTIST | DATA ANALYST | SQL | PYTHON

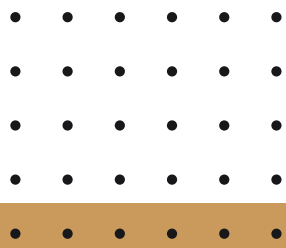

WORK EXPERIENCE

WorldQuant University - Internship - Applied Data Science Lab

- Prepared and cleaned data using custom functions, performed data wrangling with MongoDB, conducted exploratory data analysis, completed preprocessing and dataset splitting for modeling.
- Built baseline models and iterative models such as Linear Regression, Autoregression Moving Average (ARMA) and evaluated performance using Mean Absolute Error metrics (MAE) to determine improvements over the baseline models.
- Built a pipeline model combining transformers such as imputers and categorical encoders with a predictor like linear regression or ridge regression to train a complete model.
- Visualized data distributions and outlier detection using histograms and boxplots, explored variable relationships through scatterplots, measured correlation using heatmaps, autocorrelation function (ACF) and partial autocorrelation function (PACF) and communicated prediction results to stakeholders using line plots, scatter plots and bar charts.

Skillshub Africa, Remotasks Trainer

- Attempting all the courses on the training center and ensuring that you are conversant with the regular update of courses on the training center to ensure that you are able to help on explanation of all the terms and scenarios to the taskers.
- Manage performance through effective training, coaching and performance tracking ensuring
- Tasker and team targets are met within set timelines. • Provide training and coaching on new and existing projects and changes to any project instructions to support the Taskers to successfully work on a project.
- Develop a deep understanding of the assigned project(s), train and coach the trainees on the instructions and ensure that trainees are completing examples, courses or exams as advised by the trainer or training module.
- Conduct regular quality assessments and coaching; offering feedback and developing plans on how to improve quality across allocated projects.
- Provide feedback and recommendations on recurring and widespread gaps that should be addressed through training/refresher training.
- Prepare daily Tasker and Team performance reports ensuring that a data-driven management approach is followed at all times.

FARHANA AGUFA

DATA SCIENTIST| DATA ANALYST | SQL |PYTHON

WORK EXPERIENCE

Atlantic Integrated School, Nairobi Director's Secretary

- Managing the school’s bookshop
- Preparing the exam
- Managing KRA monthly P.A.Y.E
- Managing the school's Petty Cash Book
- Keeping school's file and records
- Preparing and compiling examinations, ensuring efficient disbursement of assessment books and preparing 8-4-4 report forms.

Muzdalifah Cyber, Nairobi Cyber Attendant

- Typesetting and photocopying
- Teaching computer basic packages
- Lamination
- Binding

Remotasks

- Data/Lidar Annotation/tasking and reviewing (Bee & Falcon Lidar)
- Recruiting and Training Bee and Falcon.
- Provision of accurate through-put
- Attend scheduled meetings and trainings/continuous improvement sessions.
- Data/Lidar Segmentation/tasking (Bee LSS)
